

Ellipticals That Feel Natural, Stride After Stride

Horizon ellipticals are designed to let you move fluidly and naturally. Everything from the step-on height to the handles to the pedal spacing is engineered so that you feel good throughout your low-impact workout. Thanks to special frames and useful features, you'll get a great total-body workout.

EVOLVE 5

The heavy flywheel, expansive programming and large, backlit display make the Evolve 5 perfect for serious training. Plus, the simple assembly, effortless folding and compact footprint make this elliptical as easy to own as it is to use.

- Heavy, 23-lb. flywheel and resistance toggles on stationary grips for serious training
- Cushioned foot pedals and contoured hand-grips for added comfort
- Ergonomic design and longer stride for a comfortable workout
- Innovative Cardio Compass™ display for clear, visual workout feedback
- Connect, track and share your workouts with ViaFit™ connectivity

EVOLVE 3

Simple assembly, one-step folding, a compact footprint and the most comfortable feel make this elliptical one of the best moves you can make to improve your fitness.

- One-step folding frame for easy transport and storage
- Ergonomic design and longer stride for a comfortable workout
- Innovative Cardio Compass™ display for clear, visual workout feedback
- Connect, track and share your workouts with ViaFit™ connectivity
- 20 levels of electronic resistance to add challenge and tailor workouts

EX59

When you want a comfortable, low-impact, no-nonsense workout, the EX-59 is a smart place to start.

- Low step-on height for accessibility and security
- 41 program levels for challenge and variety
- Oversized foot pedals for comfort and stability
- Integrated Bluetooth speakers easily pair with your phone
- Integrated tablet rack for added convenience

THE SIXSTAR ADVANTAGE

Your elliptical should move the way you do. That's what our SixStar™ frame is all about. We identified the six key elements that deliver the most natural feeling workouts possible.

IDEAL PEDAL PLACEMENT
Overlapping pedal placement eliminates stress on hips and back.

STRAIGHT BODY POSTURE
An upright body posture is the most comfortable and yields the fastest results.

LOW STEP-ON HEIGHT
Pedals placed low to the ground are easy to step on and off.

OPTIMAL HANDLEBAR SPACING
Grips are within ideal reach and distance for both small- and large-framed users.

A NATURAL FOOT PATH
A flatter elliptical pattern closely mimics a natural running or walking motion.

SMOOTH MOMENTUM
The large drive-pulley ratio creates the smoothest, most efficient motion.
